CHECK GOODS THOROUGHLY BEFORE INSTALLATION

Installation of received goods that are damaged, warped or faulty will void warranty. Ensure all items meet your plumbing requirements.

Recommended heights (see drawing below)	
Standard / Adult	610 mm
Junior	500 mm
Persons with Disability	400 mm

All installations should be carried out by a qualified tradesman in compliance with the National Plumbing & Drainage Code and any State or Local Authority Regulations, in accordance with AS/NZS 3500 series of standards and AS/NZA 6400. All measurements are in millimetres and are subject to change without notice. For ceramic products, please allow +/- 10 mm tolerance for manufacturing variance. Please refer to fienza.com.au for the latest product specification.

Bracket Installation

Select the relevant bracket based on your access to pipework.

No Rear Access to Pipework Use L-shaped support bracket	Rear Access to Pipework (Service Duct) Use Z-shaped support bracket
	

Installation Notes

Wall Fixing

The urinal is mounted to the wall with one of the concealed support brackets above. Note: Bracket screws are not included.

Spreader

No rear access to pipework: Spreader must screw into fixed water point (angle wall connection to match sloping front of urinal).

Rear access to pipework: Fix spreader to urinal with thread and back nut (not supplied).

Inlet

Standard 1/2" BSP female back inlet for concealed pipes. 1/2" thread will be required to connect spreader.

Outlet

One rubber connection seal, one ceramic seal, and one kee seal are supplied for push-fit with 50 mm O.D. brass tube and 50 mm DWV plastic pipe.
