TOTO Benefits & Technologies

	TORNADO FLUSH	TORNADO FLUSH not only cleans more effectively, it does so quietly using less water. Powerful streams of water merge and swirl 360 degrees, washing every spot inside the RIMLESS toilet bowl.
	RIMLESS	The RIMLESS design not only leaves no place for waste and germs to hide. It also makes for a much easier to clean toilet.
	CEFIONTECT	CEFIONTECT is an ultra-smooth ceramic glaze that coats the toilet bowl. Its microscopic surface ridges are far smaller than waste particles, leaving no place for waste to gain a foothold. Extremely durable, CEFIONTECT is designed for enduring beauty and cleanliness.
	AIR-IN WONDER WAVE	AIR-IN WONDER WAVE is a technology that uses air rich water droplets to produce a more comfortable washing sensation and deliver more thorough cleansing with less water consumption. Even more, water is warmed instantly as needed, so you need never worry about running out of warm water.
	EWATER +	EWATER+ washes the wand and toilet bowl where waste and bacteria tend to accumulate and produce stains that can become permanent. Using no chemicals or cleaning agents, EWATER+ provides peace of mind every day that microscopic bacteria has no place to hide.
	WATER SAVING	Save water by offering half/full flush options.
	AUTO OPEN/CLOSE LID & SOFT LIGHT	Eliminating the need to touch the toilet surfaces, the lid automatically opens and closes when the toilet is approached and departed. Auto Soft light function usable for night time usage.
	DEODORIZER	Highly effective deodorizing automatically takes places inside the toilet bowl both during and immediately after use, leaving no disturbing odors.
	HEATED SEAT	The moment you approach the toilet, the seat begins warming to a comfortable temperature.
	WARM AIR DRYING	Fully equipped with comfortable rear, front and oscillating cleansing and drying functions.
	PREMIST	PREMIST automatically sprays water over the surface of the inner toilet bowl before every use. Due to the ceramic's hydrophilic nature, waste washes away more easily.

EN

- After a trial-run (flushing), check the toilet bowl for foreign matter such as pipe cuttings, etc. Otherwise, foreign matter such as rust may deposit the toilet bowl.
- Be sure to close the water shutoff valve and clean the water supply filter after a trial-run.
- * Remove the water supply filter using the open/close tool included with the toilet bowl or a ratchet wrench, and clean the filter.
- * After cleaning the filter, open the water shutoff valve without fail.

- Make sure that there are no scratches or other damage on the ceramic surface. If the ceramic surface tightly contacts with or rubs against metals (watchbands, belt buckles, etc.), black or silver streak marks may be left on the surface. If that is the case, remove streaks by gently rubbing with an abrasive detergent, etc.

- Since invisible dirt such as oil (caulking agent, adhesive for piping, etc) may remain on the surface of toilet bowl after installation work, wipe off such dirt without fail using a neutral detergent (not containing abrasive agent). Otherwise, incomplete flushing of the toilet bowl may occur.

ZH

- 试运行（冲水）后、确认便器的内壁是否有配管的粉末和或异物。铁锈等异物会附着在上面。
- 试运转后，请务必关闭进水角阀，进行进水角阀内过滤器的「清扫」。
- ※利用附带的开闭工具从便器上拆下进水过滤器，进行清扫。
- ※清扫过滤器后，请勿忘记打开进水角阀。

- 确认陶器表面有没有伤痕。陶器表面有金属类（如表带、皮带扣）强烈碰触时，会产生黑色、银色的条纹。此时，用含有研磨剂的洗涤剂轻轻擦去。
- 安装完了后，便器内壁可能有油等看不见的污垢（填缝剂、配管用的粘接剂）存在此时使用厕所用中性洗涤剂（不含研磨剂）将污垢擦去。否则会变成便器内壁顽垢。

KO

- 試運転（洗浄）後、便器ボウル内に配管の切粉など異物がないことを確認してください。もらいさびなど異物付着の原因となるおそれがあります。
- 試運転後、必ず止水栓を閉じて給水フィルターを「掃除」してください。
- ※便器に付属の開閉工具もしくはラチェットレンチなどで給水フィルターを外して、掃除してください。
- ※フィルターの掃除後、忘れず止水栓を開けてください。

- 陶器表面に傷などがないことを確認してください。陶器表面に金属類（時計のバンド、ベルトのバックルなど）が強く接触したり、こすれたりすると黒や銀色のスジ状の跡が付くことがあります。スジ状の跡が付いた場合は、研磨剤入りの洗剤などで軽くこすって除去してください。
- 施工したあとは、便器ボウル内に油などの見えない汚れ（コーキング剤、配管用接着剤など）の付く場合がありますので、トイレ用中性洗剤（研磨剤なし）を使って、必ず汚れをふき取ってください。便器ボウル面の洗い残りの原因となります。
